

Cyber Security Center as a Service

The Challenge

Cyber Space is rapidly evolving. Cyber threats and advanced attacks are on the rise, threatening governments, organizations, individuals and targeting critical information assets and valuable operations. In order to deal with the threats at hand (global and local) and to guarantee business and operational continuity, organizations must incorporate new, efficient and innovative approaches and concepts.

Our Solution

- All inclusive, around the clock, **managed defense, detection and response services**, which oversee and monitor your organization's entire Cyber Security status and posture
- A complete Cyber Security apparatus and operational concept, which includes integration of **proactive Cyber Security monitoring capabilities, Cyber defense, forensics and intelligence skills**

Key Benefits

- All of your Cyber Security services under one rooftop
- Cyber Security situation room, 24/7 – Ongoing service: before, during and after Cyber events
- Mitigate threats ahead of time by utilizing the CSC's continuous monitoring and analysis mechanisms
- Facilitate your organization with forensics and response teams as well as business continuity and data recovery capabilities
- Enhance your organization's security level and readiness – Train and drill your organization
- Experienced Information & Cyber Security professionals – proven track records
- Efficient & cost effective services, enabling you to keep focus on your core business activities; Avoid the burden of maintaining complex systems, mechanisms and oversized workforces
- Prepare yourself for future regulation requirements
